VOLUME 13 — MARYVILLE, MISSOURI, SATURDAY, NOV. 18, 1922 — NO. 144

GUS DE LANA DIED AT EL RENO FRIDAY

WAS A RESIDENT OF MARYVILLE FOR ABOUT 38 YEARS.

BURIAL AT FINDLAY, O.

DeLana Family Left Maryville in 1911 —He Was 81 Years Old.

Word was received in Maryville today of the death of Gustavus De Lana at the home of his daughter, Mrs. John L. Funk, at El Reno, Okla., yesterday morning.

Burial will take place Sunday at Findlay, O., Mr. De Lana's birthplace.

Mr. De Lana was a resident of Maryville for about thirty-eight years, leaving here about 1911 for El Reno, Okla., to make his home. He visited in Maryville several times after he left here.

Mr. De Lana was 81 years old. He was born in Findlay, Ohio, September 5, 1841. He worked on a farm, went to school and clerked in a store in his early youth. So well did he devote his time while in school that in his sixteenth year he taught his first school, in the proverbial "log school house" at fifty cents a day, following the custom and "boarding" around among the scholars." After this he put in about a year at farm work, and then went to Logan County, Ill., in February, 1859. Near Mt. Pulaski, he worked on a farm and taught school for about eighteen months. While living at that place he first saw and heard Abraham Lincoln, both in court and on the rostrum. From Logan County, he went to De Soto, Jackson County, Ill., where, with his stepbrother, John B. Chamberlin, he engaged in the drug business. Later they established another store at Cobden, Union County, Ill., having a postoffice in each of their stores.

In response to Mr. Lincoln's call for one hundred day men in 1864, Mr. De Lana volunteered and was assigned to Company D, one hundred and thirty-sixth regiment Illinois Volunteer Infantry, serving in Missouri and Kentucky until discharged November 22, 1864, when he returned to De Soto to resume his position in the store that he left six months before. On December 22, 1864, he was appointed postmaster at De Soto.

On May 7, 1866, in his twenty-fourth year, he was married to Nancy Dukes. After his marriage Mr. De Lana bought land in Franklin County, Mo., fifty-two miles west of St. Louis, and here he and his wife began their married life in a log house. After two years they returned to Hancock County, Ohio, where for four years they engaged in farming and stock raising, mostly cattle and sheep. At the end of the four years, the "lure of the West" took them to Ames, Story County, Iowa, where they lived until May, 1873, when they moved to Maryville.

In Maryville Mr. DeLana was engaged in the farm loan business, and buying and selling land in Nodaway and Atchison Counties, Mo., and in Oklahoma.

Mr. De Lana is survivbd by his widow and four children: John C. De Lana of El Reno, Okla., Mrs. John Lester Funk, El Reno, Okla., Mrs. Carrie Smith, Cleveland, O., and Ione, who is at home with her parents.

Wm. E. Sweet, governor-elect of Colorado has two things to be thankful for after his victory. The first is the state-wide advertising that made it possible for him to "sell himself" to the people of Colorado and the second was the man who prepared his publicity and advertising. This man was Art B. Condon, formerly of Maryville and now head of the Condon Advertising Agency at Denver, Colo.

Mr. Condon handled the publicity for the Democratic State central Committee, which elected the governor and three members of the state ticket and had charge of the advertising in the primary gubernatural race. PROHIBITION WILL BE AN ISSUE

RECENT ELECTION HAS THROWN THAT ISSUE WIDE OPEN.

SEES LONG FIGHT AHEAD

President Harding Still Is Dry, But He Realizes the Recent Election Results.

Washington, Nov. 18. — President Harding now realizes that the prohibition issue has been thrown wide open again. His attitude, as outlined by an authorized spokesman at the White House yesterday, is as follows:

1. Definite hostility to prohibition is being expressed in certain quarters.
2. Prohibition will be a political issue for years to come.
3. The position of the President on prohibition is unchanged.

Harding's Record.

What this position is may be deduced from the following facts:

As a United States senator, Harding voted for the constitutional amendment and for the Volstead act. As a candidate for President he declared for strict enforcement of the law. As President he always has instructed his subordinates to enforce the Volstead act to the letter. An extreme case of this was the recent ruling of Attorney General Daugherty prohibiting the carrying of liquor on American ships and on foreign vessels within the 3-mile limit.

But President Harding has taken cognizance of the wet gains made in the recent elections. This was especially impressed on him when his golfing partner, Senator Frelinghuysen, was defeated for re-election in New Jersey largely because he chose to stand as a dry.

Always An Issue, He Feels.

One of Harding's strongest convictions is that prohibition will never be taken out of politics. It will be a hotly fought issue in 1924 and for many campaigns to come.

The President, however much the wet trend may be, has no intention of rushing before congress, just now to ask for beer and light wines. He wants first to be sure that the country is not undergoing merely a temporary reaction. Just now he is studying intensely the current of public opinion as expressed through letters coming to the White House, and newspaper editorials, and as seen by political observers who are constantly coming to Washington.

Many Advisers Wet.

If the drift back to beer and wine appears to be general, Harding will try to meet it. Privately, many of his advisors are for a liberalization of the Volstead act. One, Secretary of War Weeks, has openly declared for beer and wines. There is no likelihood that President Harding is going to be stampeded into turning wet suddenly. For the present he is content to put out feelers and to await the reaction.

The winners of the election will get their pictures on a separate page of the Tower, the State Teachers College annual.

Another contest was going on at the same time as the election. This was to see which class in school sold 100 per cent annuals to the members of the class. The Senior Class reported 100 per cent on the first day of the contest but this was kept secret until this morning.

Pastor of Hungarian Church, May Testify as Statement of Hall to Him Before Murder.

Edward Wheeler Hall, and his choir singer, Mrs. James Mills, Deputy-Attorney Wilbur A. Overnight developments have strengthened the belief of Hamborsky's statement. He is said to have mentioned it to several people the day following the murder.

M. H. S. WILL PLAY CAMERON H. S. NEXT

THE GAME WILL BE PLAYED NEXT FRIDAY.

FOUR TEAMS HAVE 1000

Cameron, Liberty, St. Joe Benton and Liberty Undefeated—Stanberry Game a Great Victory.

Maryville High School now has an undisputed claim to the championship of the Fourth District by virtue of the victory over the Stanberry High School team yesterday at Stanberry.

There are four teams left now with clean records, Cameron, Liberty, St. Joseph Benton and Maryville all have a percentage of 1000. These teams will have to play to decide the championship of Northwest Missouri.

In a talk yesterday with Coach Frank Lawrence of the Maryville team, the Cameron coach said that Maryville and Cameron would meet next Friday and on the same day Benton and Liberty would tussle. The place has not been decided upon.

Then the winners of these two games will play on Thanksgiving for the championship.

The Maryville High School football team defeated the much talked of Stanberry team in a hard fought contest, 14 to 0. Maryville's points were made by two touchdowns by Masters and a safety in which Mullholland, halfback of the Stanberry aggregation was tackled behind the goal line which netted Maryville two additional points.

The game was played on the field south of the Wabash depot before a crowd of approximately 1000 people. It was estimated that 300 Maryville rooters made the trip in the two extra coaches on the train and in cars.

The Stanberry boys played a hard clean game but were out classed in forward passing and were at a disadvantage because they were several pounds lighter. Grantham and Mullholland of the Stanberry squad were hard to stop on their end runs.

Ogden, right end of the Maryville team played a nice game, at one time securing a pass from O'Banion when surrounded by three Stanberry men and making a gain of about 20 yards. The Maryville line held well at all times from the attack of the Stanberry team and made nice holes for the backs to run through.

The game opened with the Stanberry rooters in large numbers on the south side of the field and the Maryville rooters on the north. Although out numbered the Maryville supporters showed as much pep as did their opponents.

The game play by play by quarters was:

First Quarter

Maryville kicked off to the 10 yard line. Grantham advanced the ball upon receiving it 10 yards; Grantham then gained 4 yards through the line; Mullholland geniad 3 and Temple was held; Temple then punted 20 yards outside. O'Banion was held on a line play; Masters gained 1 yard through left side of line; Willoughby advanced the ball a yard over; O'Banion punted 40 yards to Richardson who is held; Mullholland fumbled after gaining 5 yards but recovered the ball; Temple 2 yards gain over line; Grantham 3 yards and Evans made the downs through a center play. Grantham 5 yards on end run and 3 yards through the line; Temple on a trick play gained 8 yards; Mullholland on a run 5 yards and on the same play next time ran 20 yards before he was downed; the next time he was held at the line; (Mountjoy was sent in as substitute for Epperson by Coach Lawrence). Grantham gained 7 yards through the line; Dixson made first

2 REP. SENATORS READY TO FIGHT

LA FOLLETTE AND NORRIS ARE IN FIGHTING MOOD.

AGAINST SUBSIDY BILL

And Will Fight for Repeal of Esch-Cummins Law—Both Senators Bitter Against Them.

Washington, D. C., Nov. 18. (by J. Bart Campbell, Copyright 1922, International News Service.)—Senator Robert La Follette of Wisconsin and Senator Arthur Capper of Kansas, Republicans, have returned to the capital in a fighting mood, and both tore into the proposed ship subsidy bill as certain to increase taxation and denounced the Esch-Cummins Act as largely responsible for the economic conditions under which the farmers have been suffering.

La Follette, the logical leader of the militant progressive in the senate has served notice that he will battle side by side with Borah of Utah, Norris of Nebraska and other progressive Republicans for the defeat of the ship subsidy bill and repeal of the Esch-Cummins Transportation Act.

He expressed elation over the election of the new progressives leaders in the Senate like Shipstead, of Minnesota, Brookhart of Iowa and Frasier of North Dakota. He said that leaders of the Harding administration dared not to bring the scheme up for action before election.

La Follette branded the measure as an act to "Throw the government owned and constructed ships to the shipping monopoly for ten cents on the dollar and to tax the people million of dollars for years for high transportation to satisfy the greed of the monopoly."

"In other words" he declared "They want to give the ships away and then pay a handsome sum for their upkeep."

ADVICE TO CONGRESSMEN.

When Congress again convenes it may be somewhat perplexed by the conflicting demands made upon its members. There is no disputing that the country has expressed its disapproval of their doings during the past two years but there will be a divergence of opinion as to the particular things the people want done.

They may be assured of one thing. One thing the people want done is "something." They don't want the whole time of Congress frittered away in petty politics and pussyfooting. If Congress will get down to business and do what it believes to be right for the people as a whole and use its best horse sense in so doing, and leave the consequences to the people, they will have much less cause for regrets hereafter. Those members who spend their time trimming and whiffling for fear they will offend somebody and not be re-elected should learn that that sort of procedure does not get the approval of the people as a whole and that is the thing that is necessary to maintain a successful political career.

The people are willing to overlook an occasional mistake in judgment when they have confidence in the member's integrity of purpose. They don't expect a member of Congress to be omniscient or to have an infallible judgment. They know he is of ordinary flesh and blood, like other people, but they do expect him to be honest and conscientious and courageous enough to do what he believes to be right and just regardless of consequences.

If the turkey can get by Thanksgiving and Christmas both, he will feel pretty safe for another year.

Two drunks in a Ford got into an argument as to which one was driving. They went into the ditch but the moonshine continues to shine.

It will be worth while reading President Harding's and Governor Hyde's Thanksgiving proclamations this year just to see what is left for them to be thankful for.

It is said nearly a hundred thousand pairs of galoshes have been shipped to the Balkans. It looks like they ought to be able to think of some place farther than that to ship those things.

HARMONY.

Lots of rain the past week. The corn fields are so soft, not much husking going on this week.

There was no preaching service Sunday on account of rainy weather.

Mr. and Mrs. Otto McCall and children attended the Baptist church at Orrsburg Sunday.

The Rev. Clarence Green and wife entertained several of their friends and neighbors Tuesday evening. Refreshments of fresh oysters were served. All report a most enjoyable time.

Mrs. Vesta Buck and two children and Bluford Heflin were Sunday callers at the home of Harry Lewis.

In spite of bad roads there was a good many attended the sale Tuesday of Mrs. Edith Headrick. Everything sold well.

The Harmony basketball boys will go to Conception Friday evening to play the ball team there and Marcell of Maryville will take a picture of the teams in action.

We understand that Frank West of Parnell has bought the Nute Long farm of 80 acres, one mile west and a quarter south of Harmony church. Possession to begin the first of March. This is the second place to sell in this vicinity in the last month.

downs for the Stanberry team. The team had 4 downs and were within 8 yards of the goal. Grantham went 4 yards through the line, Temple 2 and Richardson 1; Ogden threw Mullholland for a loss on an end run and Maryville receives ball on downs. With 1 yard to go an end run was a very foolish play for the Stanberry quarterback to call as a line play would have been more suited for the occasion. O'Banion punted 45 yards for Maryville getting the ball out of dangerous territory. Grantham received a forward pass from Dixson and made a gain of 6 yards; the next two passes from Dixson were incomplete; Grantham gained 3 through line; ball went to Maryville on downs; O'Banion lost 10 yards on a bad throw from center; O'Banion punted 45 yards and Grantham upon receiving was stopped in his tracks by the Maryville ends. Temple gained a yard through center and Mullholland then punted 30 yards to Willoughby, who returned it 10 yards; Fannon made 5 yards and O'Banion made 4 through center; O'Banion then went around left end for a 30 yard gain and was stopped by the safe man, 20 yards from the goal line; Willoughby gains 5 yards around but Fannon was held at the line on the next play; Fannon gained 5 through center; Maryville made first down. Masters and Fannon were held and Willoughby gained 6 yards around end. Quarter ended Maryville 0, Stanberry-0.

Second Quarter

It was Maryville's ball on the 8 yard line and second down. Masters 2 yards around right end but lost the ball on a fumble. Mullholland fumbled the ball behind his own goal line when he attempted the punt out. Stanberry recovers the ball. Referee deciares safety which gives Maryville 2 points. A big argument by the Stanberry team and the officials started about points but decision stood. The ball was given to Stanberry on the 30 yard line; Grantham gained 4 around left end. Allan failed to gain and punted 25 yards to Willoughby, who ran ball back 10 yards. (Time out for Stanberry). O'Banion was twice stopped at the line and then made a 35 yard punt to the out side. Mullholland ran the ball back 25 yards; Grantham gained 11 through line; Mullholland 4 yards on end run; Grantham 2 yards around end, Mullholland punted 35 yards to Willoughby who advanced the ball 10 yards; O'Banion failed to gain and Masters gained 4 on right end. O'Banion punted 40 yards to Richardson, Ogden tackled man in his tracks; Temple's punt was blocked and recovered by Ogden. Maryville's ball on 6 yard line. O'Banion gained a yard and Masters gained 5 for a touchdown. O'Banion failed to kick goal. Score Maryville-8, Stanberry-0.

Masters kicks off for Maryville to Grantham who advanced ball 15 yards. Mullholland gained 15 yards on a fake pass but play was called back by referee and 5 yards penalty given because backfield was in motion. Mullholland punts 20 yards outside. Masters gains 3 yards off of re. O'Banion attempts pass to Ogden which is blocked; O'Banion completes pass to Willoughby for a total gain of 15 yards. FOOTBALL DOPE

Perhaps the general public doesn't realize what a football game means to a newspaper. In the first place it furnishes news, but at the same time it necessitates the answering of numerous telephone calls in regard to the score.

Yesterday afternoon the telephones in the Democrat-Forum office started ringing about 3 o'clock and continued to ring until about 9 o'clock last night.

One of the office force started to keep track of the number of calls, but they came so fast that he suffered the writer's cramps from making tallies so that after he had recorded some two hundred calls he was forced to stop.

That's one of the joys of the newspaper game.

If the State Teachers College Bearcats win from Tarkio Monday and if Missouri Wesleyan loses to Central and Drury to Westminster today then Coach Eugene Maynor's aggregation of football players will be tied with Missouri Intercollegiate Athletic Association.

If in addition to the dope just figured Missouri Valley were to lose her two remaining games of the season and Missouri Wesleyan her last game and the Bearcats win from Westminster then the Bearcats would finish undisputedly in second place, providing of course, that Springfield, Kirksville and Jewell retain their 1000 percentage.

The real dope is that the Bearcats will finish in fourth or fifth place, but this is a whole lot better than they have ever done in the past.

William Jewell and Kirksville played a scoreless tie yesterday afternoon at Kansas City. The game was played in mud and rain but nevertheless it was a good exhibition of football. Both of these teams were tied with Springfield for first place in the conference before the game and after the game the standings had not changed a bit.

Warrensburg went down to another muddy defeat yesterday at Marshall when the Missouri Valley Vikings won from the Bears by a score of 12 to 0. The game was straight football, Missouri Valley making eleven first downs to the Bears two.

MUCH INTEREST SHOWN IN CHRISTIAN REVIVAL

Meeting Tonight, But None Monday—Sunday Subjects, "Best for Christ" "Christ at the Door."

Much interest is being manifested in the revival meetings being held at the First Christian Church by the pastor, the Rev. R. E. Snodgrass and Price Doyle, chorister. The meeting began last Monday and there have been good crowds despite the weather.

There will be services tonight, but no meeting on Monday night, as that wil be used as rest night during the revival. The sermon subject for tonight will be, "Intercessory Prayer." Sunday morning and evening the subjects will be respectively, "The Best for Christ," and "Christ at the Door."

Prayer meetings have been held this week in each of the wards with good attendance. The day meetings next week will be held at the church at 2 o'clock.

The young people of the church are taking a religious census of the city today and leaving an invitation from the pastor in each home. Much valuable information will be secured thru this canvass for the meeting.

There have been no invitations extended this week but tomorrow it is expected that several will unite with the church. This is the third meeting conducted by the local pastor and each meeting has resulted in a large number of additions to the church. The revival last fall was conducted by Dr. Kellems and there were 200 added to the church.

Two pianos will be used with the organ in the services next week. The platform of the church has recently been enlarged to accommodate a large chorus. New song books ihave just been purchased and arrived today and will be used in all the services from now on.

Drainage Man at Guilford.

Thomas Raines, the right-of-way man of the Briggs & Drew Ditching Co., is in Guilford, located at the Henderson hotel. He will clear the right-of-way of the Andrew-Nodaway Drainage District from two miles north of Conception to the Whitesville bridge, a distance of 18 miles. He says that if the farmers want to clear their own right-of-way of timber and brush, according to specifications of the district, they may do so. But where they do not want to do this, he expects to hire men to clear it so that when the drag line machinery gets here about the first of January there will be no timber in the way of digging the new channel for the Platte river. This will give several men work this winter. See him at the hotel in regard to this work.—Guilford Times.

Hopkins Journal.

At the Christian church parsonage in Hopkins last Wednesday, Nov. 8, Rev. Ben Gillispie officiating, Mr. Bert Blackney and Miss Lulu M. Shelton were united in marriage. Both the bride and groom are residents of the Good Hope vicinity, Mr. Blackney being a prominent young farmer and stockman and his bride a popular young lady of that visinity.

Last week the Journal told of Ed Broyles, a former Hopkins man, being run down and killed by an auto and it now transpires that the man driving the car, was a neighbor and personal friend of the man he killed. The accident happened at Greeley, Colo., and the cause was the man driving the car "cutting a corner." Ed was on the right side of the street on a bicycle when the car, a Chevrolet, struck him knocking him from the bicycle and passing over his body. He was killed instantly.

NEAR EAST RELIEF.

Ann Tallquist, State Director, Western Missouri, 701 Searritt Bldg., Kansas City, Mo.

In response to the call of President Harding, for an emergency fund to care for the refugees of Armenia, and other parts of the Near East, committed to the care of the Near East Relief; arrangements have been made for an offering to be taken in each church of Nodaway County, Sunday, November 19.

There has never been such a condition as exists in that part of the world today. Hundreds of thousands driven from their homes and not allowed to take anything more than they could carry on their backs with them. Then driven to the slaughter like cattle and only because they are Christians.

The Near East Relief has now 124,000 orphan children in 124 orphanages. From these places of refuge 248,000 little hands are lifted to us for bread and clothes to carry them through the winter. $5.00 will keep one child 30 days, $60 for one year.

They are the children whose fathers and brothers laid down their lives as the Allies of America in the World War. If you respond to this call write a check today, payable to the Near East Relief, and tomorrow when the offering is taken in the church put it in the contribution basket.

ANNA MAC SWINEY BEGINS HUNGER STRIKE FOR HER SISTER

Dublin, Nov. 18—At the gate of the Mount Joy prison, Anna MacSwiney, of Cork began a hunger strike today which will last until her sister, Mary is released from prison. Mary MacSwiney, who was arrested November 4, today entered her fourteenth day of hunger.

Upon her arrival from Cork, Anna, with her child went to the prison to see her sister, but was refused entrance by the warden who said his orders permitted no entrance. "If you don't let me see Mary I will starve myself at the prison gate," she declared when refused sight of her sister.

"I will remain here until my sister is released, or die here," she re-iterated. Mary is in a weakened condition and suffering from her hunger strike.

A bulletin this afternoon from the Mount Joy prison said that the condition of Mary MacSweeney was unchanged.

RECORD KILL OF PREDATORY ANIMALS MADE BY TEXAN.

Texas holds the record for the highest individual catch of predatory animals made by one hunter in one month, according to a report received by the United States Department of Agriculture. The hunter, who was working near Eagle Pass, in Maverick County, caught 104 coyotes and 10 bobcats in 24 days' actual trapping operations. This good work was a part of the effort of the Biological Survey to help ranchmen in the control of dangerous and destructive animals throughout the state. Previous to September, 1921, state funds were available for this purpose; but since that time only funds from the Federal appropriation, amounting to $15,100, have been available to carry on the work.

Even with this small fund, however, much has been done. Individual stockmen, or groups of stockmen in clubs who wish to obtain protection of their own interests, have agreed to pay two thirds of the salary of the hunters assigned to their various territories ,and the other third is paid from Federal funds. In this way about twenty hunters can be retained on the force. This plan has been readily adopted in spite of a general shortage of money and a slump in the ranching business. Campaigns were started in different counties, with excellent results. In addition to trapping, shooting, and hunting with dogs, a great many predatory animals have been destroyed by means of poison baits.

Fifty Years Ago

(From the Nodaway Democrat, Nov. 21, 1872.)

One day last week John Owens sold 108 hogs averaging in weight 370¾ pounds. Mr. Owens is one of the best farmers in the county and feels satisfied that his hogs can't be beaten.

On the night of November 13 someone broke into the store of Allen Mozingo, at Bridgewater, and stole a considerable amount of goods, consisting of shoes, alpaeas, prints, delains, a shotgun, saddle, harness, bridles and other articles.

There is nothing like economy. Tom Vanarsdel, who has lost his left arm, and Mike Yehle, who has lost his right arm, clubbed together and bought a pair of gloves and divided them, each taking one. "A penny saved is twopence earned."

Twenty Years Ago.

The various Protestant denominations of the city will hold union services Thanksgiving day at the Presbyterian church. The opening prayer will be made by Rev. I. T. Creek of the Baptist church. Sermon by Rev. Linn of the M. E. Church, South. Reading President's proclamation by Elder Lawrence of the Christian church. Benediction by Rev. C. E. Kircher of the Presbyterian church.

The report of Superintendent Leib for the month of October shows the Maryville public schools to have an enrollment of 1,049.

The first snow of the winter fell on Friday morning, Nov. 14.

It is a very backward fall about gathering corn. The fields are quite muddy.

Miss Rose Collins brought to town Friday evening a bunch of oats, nicely headed out, and about four feet high, which had grown volunteer from the crop harvested the past summer. It grew on the farm of James Eckles west of town.

Plenty of Spuds This Year.

The indicated yield of potatoes for the United States is 438,398,000 bushels on October first against 346,823,000 bushels last year and a five-year average of 373,417,000 bushels, according to E. A. Logan and Jewell Mayes of the Federal-State Crop Reporting Service. The condition is 4½ points above a ten year average.

All the important potato-growing states will have an increased yield over last year except Maine, which shows a reduction of slightly above fifteen million bushels.

New York and Pennsylvania are harvesting a crop only slightly above last year, but heavy increases are shown in Ohio, Michigan, Wisconsin, Minnesota, North Dakota, and Colorado, with the yields in Idaho, California and Nebraska more closely approximating the yields of last year. The increased yields in most of the Central Western states are due to a heavily increased acreage over last year.

The average price per bushel throughout the United States is 69.6 cents against 137.5 cents in October, 1921. The returns to producers in many sections hardly justify the expense of digging.

Ten "Centers" Most Popular With Cigar Smokers; 8c Next

Washington, Nov. 18.—Although the consumers of ten-cent cigars comprise the biggest percentage of American smokers nearly one-third of these who worship faithfully at the shrine of Lady Nicotine will not pay more than eight cents for a smoke.

These smokers of eight-centers, the Department of Commerce reveals, in an analysis of the tobacco industry in the United States last year, used up 30 per cent of the 7,368,000,000 large cigars manufactured in this country in 1921. They smoked 2,186,000,000 cigars, ranging in price from five to eight cents.

Forty-two per cent—3,079,000,000—of all the cigars were sold by manufacturers to retail at prices ranging from nine to fifteen cents Only 3 per cent—213,000,000—of the total number of cigars were made to sell for more than fifteen cents, while 25 per cent —1,890,000,000—were turned over to retail dealers to be disposed of for not more than a nickle apiece.

The Department of Commerce pointed out in its revie wthat the character of the cigars manufactured in the various districts vary greatly.

"About three-fourths of the total production in Florida," it is stated, "were intended to retail for more than eight cents each. On the other hand, about 95 per cent of the total production of Virginia were intended to retail for not more than five cents. West Virginia and the Twenty-third District of Pennsylvania, the home of the "stogie," also show a very lage percentage of the total production to retail for five cents or less."

Figures compiled by the Census Bureau show that 45,743,000,000 factory-made cigarettes were manufactured for consumption in the United States last year, in addition to 8,544,000,000 cigarettes which were exported. At this rate, the average per capita consumption of factory-made cigarettes in 1921 was 400.

According to the census reports, 1,473,000 acres were planted in tobacco in 1921, while the production of the crop amounted to 1,117,682,000 pounds, which compares with 1,582,225,000 for 1920. There were imported during the year leaf tobacco and products valued at more than $60,000,000, while the exports of leaf tobacco were valued at approximately $205,000,000.

The combined production of cigars in registered factories and in bonded manufacturing warehouses was 8,581,635,000 pounds; of cigarettes, 54,287,000 pounds, and of chewing and smoking tobacco and snuff, 414,000,000 pounds.

The Government collected $254,035,000 in revenues during the year in tobacco taxes. Of this total North Carolina contributed $79,567,000; New York, $44,199,000; Pennsylvania, $22,260,000; New Jersey, $20,919,000; Virginia, $18,580,000, and Ohio, $14,255,000.

A Community Asset

A lyceum course is an important institution in every community in that it furnishes high class entertainment and offers educational opportunities that often can not be obtained by the small town in any other way. The lyceum in winter corresponds to the chautauqua in summer, and the smaller towns and cities can ill afford to do without either of them.

Maryville needs both and should continue to be served by both each year. But Maryville must SUPPORT the lyceum if it is to remain a part of the community life. Many people here support the chautauqua, but take no interest in the lyceum.

The Redpath-Horner Lyceum Bureau of Kansas City is furnishing the talent for the five-numbered course sponsored by the Oxford Class of the First Methodist Episcopal Church this year. The following are the numbers:

Maud Ballington Booth, lecturer, Nov. 20.

Everett Kemp, monologist, Dec. 28.

Maitland Entertainers, musical, Jan. 8.

"The Bubble," a play in three acts, Feb. 12.

The Barnabys, musical entertainers, March 12.

This course is brought here by the Oxford Class to serve ALL of Maryville. Therefore, ALL Maryville should support it.

The first number will be next MONDAY NIGHT, when MAUD BALLINGTON BOOTH, world-famed lecturer and organizer of the Volunteer Prison League, will speak at the First M. E. Church, at 7:45 o'clock.

Buy your season tickets TODAY. Adults $2.00, students $1.00. Tickets may be obtained from members of the Oxford Class or at the Price Furniture Store. Single admission fifty cents.
